## Drives

### FRENIC-MEGA Series Drives

Fuji Electric's FRENIC-MEGA series provides the industry's highest performance constant torque drive for three-phase motor applications. Expanded power ratings and flexible configurations are offered that support ½ horsepower up to 1,000 horsepower, AC. The series is designed for 24/7, zero down-time applications with embedded motor

protection and critical maintenance functions with a multifunction keypad and optional USB port and a maintenance warning signal output.

## Epoxies

### Quartz-Filled, Heat-Resistant Epoxy

Master Bond Supreme 45HTQ is a two-component, quartz-filled epoxy for high performance structural bonding, casting and sealing. This epoxy produces high-strength bonds at both ambient and elevated temperatures while maintaining exceptional resistance to thermal recycling and many harsh chemicals. It is suitable for applications in which long-term exposure to temperatures from -60 F to +450 F is required.

## Mud Service

### Proco Molded Spherical Joints Style 240/242

PROCO Products, Inc., is a leader in the supply of spherical-shaped rubber expansion joints for mud pump and shale shaker applications. The 240 style units can be found on land-based or offshore rigs. Elastomer choices are neoprene for water-based mud or nitrile for diesel-based mud. Visit [www.procoproducts.com](http://www.procoproducts.com) for more information on the Style 240/242 expansion joints.
