## [Details of the change]

The shape of the screw mount located on the case power supply will be partially changed. (Addition of rib shape)

Conventional product	Changed product
 A photograph of the CP30F Series Circuit Protector main body. A red box highlights the screw mount area, which is magnified in the adjacent diagram. The magnified view shows a U-shaped screw mount with a smooth, rounded bottom edge.	 A 3D CAD model of the modified screw mount. A callout box with the text 'Addition of rib shape' and an arrow points to a new vertical rib that has been added to the inner side wall of the U-shaped mount, near the bottom edge.
