

The Power of Fuji Electric

Why Fuji Electric?

For almost 100 years, Fuji Electric has been at the forefront of technology and energy products. Our goal to manufacture the highest quality, superbly engineered, innovative products has been incorporated into the company since the beginning. Equally important, we're with you at every step—from expert applications engineering to delivery and support. You'll not only be able to achieve your goals, you'll also save time by partnering with Fuji Electric.

The Fuji Electric Advantage

- Exceptional performance
- Industry-leading quality and reliability
- Environmental compliance
- Manufacturing expertise and scale
- Differentiating technology
- World-class applications support

We Supply Trusted Products

Our AC Drives, HMI's, Semiconductors, and Blowers are some of the power electronics we supply. Our products provide consistent performance and control and grant overall space savings.

We Know Your Markets

We understand the application needs in Manufacturing, Water Management, HVAC, and other Power Generation segments—**which is why Fuji Electric is the power behind your products!**

Fuji Electric Fun Fact

Fuji Electric Regenerative Blowers are utilized in Commercial Spas and Hot Tubs to provide aeration.

Did You Know?

A rotating restaurant in Croatia is currently being operated by Fuji Electric Drives and HMI's.

A Global Leader

We provide power electronics across North, Central, and South America. Give us a call at **(866) 230-7074** or email us at fea-marketing@fujielectric.com. Fuji Electric Corp. of America is here to serve your industry's needs.

Drives

- FRENIC-Mini (C2),
- FRENIC-Ace,
- FRENIC-Mega,
- FRENIC-Eco,
- FRENIC-HVAC,
- FRENIC-HPAQ,
- FRENIC-EcoPAK,
- FRENIC-EcoPUMP

Semiconductors

- IGBT Modules
- Discrete UGBT
- SiC Devices
- Power MOSFETs
- Power Supply Control
- ICs
- Rectifier Diodes

Instrumentation

- CEMS & Process
- Monitoring Gas
- Analyzers
- Flow Meters
- Pressure
- Transmitters
- Temperature
- Controllers

Blowers, Fans & Pumps

- Ring Compressors
- Blowers
- Pumps
- Accessories

Distribution & Control

- Contactors
- Thermal Overload
- Relays
- Circuit Breakers
- Pushbutton Switches
- Pilot Lights
- Manual Motor
- Starters

HMI

- MONITOUCH X1
- MONITOUCH HMI V9
- MONITOUCH
- Technoshot
- Web Machine
- Interface
- TELLUS and V-Server
- V-SFT Configuration
- Software

UPS

- UPS7000HX-T3U
- UPS7300WX-T3U
- UPS7400WX-T3U

Transit Systems

- Passenger Door
- Operating System
- Auxiliary Power
- Supply (APS) System
- Propulsion System

Power Generation

- Geothermal Turbines
- Steam Turbines
- Generators
- Turbine/Generator
- Services

Food & Beverage

- Bean-to-cup Coffee Machine

Photoconductors

- Photoconductors
- Drums

Power Supply

- Mini UPS
- 1U 54V 2500W Power Supply
- 19 Inch Rackable Control Panel
- FIP06 Series
