

When you receive an email with an attachment from Fuji Electric, the attached files will be automatically detached. You will receive the original email body with a PDF attachment containing a file download URL. You can then authenticate your email address via the URL in the PDF. After entering a verification code, you will be able to download the files.

How to Download Files

Recipient Operating Procedures

Step 01

Open the pdf file you received to access the download link. Click English, then click on the link. Access the download URL provided in the PDF attached to the email.

Step 02

Confirm your email address and click "OK." or "Send Verification Code." A verification code will be sent to you in a separate email.

Step 03

Enter the verification code and download the file.

ファイル名	種類	サイズ
Drives Selection Guide-Print.pdf	PDF	3.1 MB

The screen shows a progress bar at the top with two steps: '1 Enter email address' and '2 Enter verification code'. Below the progress bar is a large icon of a person with a checkmark. The main heading is 'Email address verification'. Below this, it says 'A verification code is required to confirm your identity. The verification code will be sent to the following e-mail address.' followed by the email address 'us***@e***.com'. At the bottom, there is a blue button labeled 'Send Verification Code' which is highlighted with a red rectangle.

The top part of the image shows a screen titled 'We sent you a verification code' with the email address 'us***@e***.com'. It instructs the user to 'Enter the digit code we sent you to the above email address. You can copy and paste the code.' Below this is a text input field and a blue 'Verify' button. The bottom part of the image shows a file download screen. It says 'You have received a file:' followed by 'example.tif'. Below this is a blue button labeled 'Download' which is highlighted with a red rectangle. To the right of the download button is a sidebar with file details: 'File Name: example.tif', 'Status: ACTIVE', 'File Format: application/octet-stream', and 'File Size: 3.1 MB'.
